

Psychedelics Drug Development Startup Seeking Pharmacology/Toxicology Science Advisor

DELOS is dedicated to rigorously researching and developing psychedelic medicines with the aim of producing commercially available treatments that are safe, effective, and affordable.

Job Description

Position Summary:

Delos is hiring a pharmacology and toxicology expert who can help inform protocol development and safety adherence for our upcoming studies related to full dose use of 5-MeO-DMT and LSD microdosing. Experience with FDA requirements is essential and previous experience with clinical trials is preferred.

Key Responsibilities:

- Advising our team on proper allometric scaling for protocol development.
- Assisting with writing Investigator's Brochures or equivalent literature reviews for single study-sites.
- Ensuring safety adherence for studies that are under development.
- Assurance of successful submission to IRB, along with state and federal review processes.

Essential:

- Education: MD, PhD, PharmD, or equivalent advanced degree of relevance.
- Experience working with drug development teams.
- Experience writing clinical regulatory submission documents.
- In-depth understanding of drug development and the regulatory environment.
- Ability to assess toxicology, pharmacodynamics, and pharmacokinetics of novel drugs.
- Proficiency with allometric scaling.
